Performance and Quality Dashboard

June 2022

Matthew Tait, Interim Chief Delivery Officer

- This pack includes metrics that cover some of the key aspects of the national System Oversight Framework (SOF) and our Operational Planning:
 - NHSE use 220 common metrics to assess performance, excluding recovery metrics.
 - The SOF has around 100 metrics, many of which are reported on a quarterly or annual basis.
- The data has a time lag to ensure validation. Daily and weekly updates are used for operational and internal planning purposes and are subject to Patient Information (COPI) restriction in terms of distribution and use.
- Given the recovery and post pandemic pressures across the NHS, the system is finding it challenging to achieve pre pandemic national targets.
- The key areas of focus for 2022/23 include recovery elective activity to pre pandemic levels, reducing the number of long waits and improving operational delivery of the urgent care pathways with a focus on ambulance handovers, discharges and managing occupancy levels.
- The pack also includes the present CQC ratings of local providers and the strategic oversight frameworks ratings.
- We will refine our reporting as the SOF process becomes further embedded in the ICB operating model.

System Oversight Framework (SOF)

The System Oversight Framework dashboard is one of the tools used by NHS England to determine the System Oversight Framework ratings attributed to each provider and ICS. These ratings are reviewed quarterly in arrears. The overall rating for BOB ICS is SOF3 with providers being rated as follows:

SOF 1	SOF 2	SOF 3
Berkshire Healthcare Foundation Trust	Oxford Health Foundation Trust	Buckinghamshire Healthcare NHS Trust
	Royal Berkshire Hospital Foundation Trust	
	South Central Ambulance Services Foundation Trust *	
	Oxford University Hospitals Foundation Trust	

Under the SOF 3 actions, monthly reviews of the Buckinghamshire Healthcare Trust improvement plans are held to demonstrate progress on long waits, improvements in urgent care and cancer services.

SOF ratings for organisations and the system is due to be reviewed again in November 2022.

* Pending review following CQC report
