Data Protection Impact Assessment (DPIA) Template

A DPIA is designed to describe your processing and to help manage any potential harm to individuals' in the use of their information. DPIAs are also important tools for demonstrating accountability, as they help you as a Controller to comply with the requirements of the Data Protection Legislation. Non-compliance with DPIA requirements can lead to fines imposed by the Information Commissioners Office (ICO); this includes not carrying out a DPIA at all, carrying out a DPIA in an incorrect way or failing to consult the ICO where required.

DPIA's are not new; the use of Privacy Impact Assessments has become common practice in the NHS and can provide evidence of compliance within the Data Security and Protection toolkit (DSPT); DPIAs build on that practice.

It is not always clear whether you should do a DPIA or not but there are a number of situations where a DPIA **should** be considered or where a DPIA is a **legal requirement**. If you can tick against the criteria below it is highly recommended that you undertake a DPIA and if you decide not to, ensure that you document the reasons for your decision.

You as Controller **MUST** carry out a DPIA where you plan to:

	Tick or leave blank
Use profiling or automated decision-making to make significant decisions about people or their access to a service, opportunity or benefit;	<input type="checkbox"/>
Process special-category data or criminal-offence data on a large scale ;	<input type="checkbox"/>
Monitor a publicly accessible place on a large scale;	<input type="checkbox"/>
Use innovative technology in combination with any of the criteria in the European guidelines;	<input type="checkbox"/>
Carry out profiling on a large scale;	<input type="checkbox"/>
Process biometric or genetic data in combination with any of the criteria in the European guidelines;	<input type="checkbox"/>
Combine, compare or match data from multiple sources;	<input type="checkbox"/>
Process personal data without providing a privacy notice directly to the individual in combination with any of the criteria in the European guidelines;	<input checked="" type="checkbox"/>
Process personal data in a way that involves tracking individuals' online or offline location or behaviour, in combination with any of the criteria in the European guidelines;	<input type="checkbox"/>
Process children's personal data for profiling or automated decision-making or for marketing purposes, or offer online services directly to them;	<input type="checkbox"/>
Process personal data that could result in a risk of physical harm in the event of a security breach.	<input type="checkbox"/>

You as Controller should **consider** carrying out a DPIA where you

	Tick or leave blank
Plan any major project involving the use of personal data;	<input type="checkbox"/>
Plan to do evaluation or scoring;	<input checked="" type="checkbox"/>
Want to use systematic monitoring;	<input type="checkbox"/>
Process sensitive data or data of a highly personal nature;	<input type="checkbox"/>
Processing data on a large scale;	<input type="checkbox"/>
Include data concerning vulnerable data subjects;	<input type="checkbox"/>
Plan to use innovative technological or organisational solutions;	<input type="checkbox"/>

A new DPIA should be carried out if you decide that there is a significant enough change to what you originally intended but it is good practice for DPIAs to be kept under review and revisited when necessary.

There is guidance to help you. Your Data Protection Officer (DPO) can be consulted before completing a DPIA in order to provide specialist advice and guidance or simply to talk things through with you.

Processing has to be lawful so identify which of the following you believe justifies what you are proposing to do and include an explanation as to why in the relevant box. You must select at least one from a – f.

Article 6 (1) of the GDPR includes the following:	
a) THE DATA SUBJECT HAS GIVEN CONSENT	Tick or leave blank <input type="checkbox"/>
Why are you relying on consent from the data subject? Click here to enter text.	
What is the process for obtaining and recording consent from the Data Subject? (How, where, when, by whom). Click here to enter text.	
Describe how your consent form is compliant with the Data Protection requirements? (There is a checklist that can be used to assess this). Click here to enter text.	
b) IT IS NECESSARY FOR THE PERFORMANCE OF A CONTRACT TO WHICH THE DATA SUBJECT IS PARTY	Tick or leave blank <input type="checkbox"/>
(The contract needs to be between the Controller and the individual and not concern data being processed due to someone else having a contract with the Controller. Processing can happen before the contract is entered into e.g. processing a pre-health assessment for a private or cosmetic procedure that is a paid for service with the delivery of that care done under contract between the Patient and the Practitioner).	
What contract is being referred to? Click here to enter text.	
c) IT IS NECESSARY UNDER A LEGAL OBLIGATION TO WHICH THE CONTROLLER IS SUBJECT	Tick or leave blank <input type="checkbox"/>

Identify the legislation or legal obligation you believe requires you to undertake this processing. Click here to enter text.	
d) IT IS NECESSARY TO PROTECT THE VITAL INTERESTS OF THE DATA SUBJECT OR ANOTHER NATURAL PERSON	Tick or leave blank <input type="checkbox"/>
(This will apply only when you need to process data to protect someone's life. It must be necessary and does not only relate to the individual whose data is being processed. It can also apply to protect another person's life. Emergency Care is likely to fall into this category but planned care would not. You may need to process a Parent's data to protect the life of a child. The individual concerned is unlikely to be able to provide consent physically or legally; if you are able to gain consent then this legal basis will not apply).	
How will you protect the vital interests of the data subject or another natural person by undertaking this activity? Click here to enter text.	
e) IT IS NECESSARY FOR THE PERFORMANCE OF A TASK CARRIED OUT IN THE PUBLIC INTEREST OR UNDER OFFICIAL AUTHORITY VESTED IN THE CONTROLLER	Tick or leave blank <input checked="" type="checkbox"/>
(This is different to 6 c). If you are processing data using this basis for its lawfulness then you should be able to identify a specific task, function or power that is set out in law. The processing must be necessary, if not then this basis does not apply).	
What statutory power or duty does the Controller derive their official authority from?
